### MONEY MARKET. THURSDAY, Jan. 20-6 P. M.

There was quite an active demand for stocks this morning. A large portion of the transactions was on time, buyer's option, and the leading railroad stocks appear to command the attention of speculators. Erie Railroad was very well maintained, in is rapidly moving up, under the influence of the cornering clique in Philadelphia. Outside specula tors should be careful how they touch it at present prices. We see no let up in the demand for the most prominent coal stocks. The inquiry is principally from cutsiders, and most of the purchases are

The variations at the first board to-day, were as follows:-Long Island advanced 24 per cent; Florence and Keyport, 4; Panama Railroad, 1; Rochester, Lockport and Niagara Falls Railroad, 1. Montgomery Mining declined | per cent; Erie Railroad, 4; Hudson River Railroad, 4. At the second board there were very heavy transactions in Erie Railroad. at an advance of 1 per cent. In other stocks there was no change of consequence. In State stocks and railroad bonds there was an active business, at full

The receipts at the office of the Assistant Treasurer, of this port, to-day, amounted to \$96,194 45; payments, \$25,443 97—balance, \$3,015,246 26. There has been but a moderate demand for foreign

exchance for remittance by the steamship Pacific, from this port, on Saturday. We have no change to report in rates, but the market was a little firmer.

The Astor Fire Insurance Company have declared a semi-annual dividend of eight per cent; the Union India Rubber Company, twenty per cent; Rochester, Lockport and Niagara Falls Company, four per cent. The Cliff Mine, Lake Superior, has declared a

semi-annual dividend of \$7 50 per share, making \$51 50 per share since the commencement of dividends, on an investment of \$18 per share. The company have a surplus of \$70,000 in copper, after the above

of \$300,000, were opened yesterday afternoon, at Messers. J. King & Son's. The total amount tendered was one million dollars, at 102 51 a 105.

The Parker's Vein Coal Company have given notice that they will propose at a meeting of the shareholders, summoned for the 7th February, at Baltimore, (Eutaw House) to increase the capital stock to \$2,000,000, for the purpose "of extending the business of said company to the mining of coal in the said company's lands near Westernport, in Allegany county, Maryland, and to anthorise the directors of said company to furnish facilities to the transportation companies, on receiving their contracts, to freight the coal of the said company from their mines to market."

There will be a sale to-day at the Merchants' Exchange, by Simeon Draper, of some California seven per cent bonds; also, some railroad and fire insurance shares, and a parcel of stock in the Pacific Mail Steamship Company. Particulars will be found

According to the returns of all the New York city banks, made up from their official reports for December, 1852, it appears that the loans and discounts amounted to \$78,400,159; deposits, \$45,731,538; circulation, \$9,094,483; specie, \$10,355,978. In September, 1852, the loans amounted to \$79,039.394: deposits, \$49,608,801; circulation, \$8,678,664; specie. \$8,702,895.

The following are the receipts of the New York and Harlem Railroad Company in each month of the

Total \$319,036 \$417,533 \$489,934 \$621,842 \$705,005 This statement of the receipts of the Harlem Railroad Company must be very encouraging to the stockholders, and insures to them confidence in their present and future prosperity, which is clearly per-

company have paid regular dividends on all its stock—eight per cent on the thirty thousand shares of preferred stock, and four per cent on all the other stock, better known as the old stock; and it is high time that the company had paid a larger dividend upon this latter kind of stock, and the dividend upon this latter kind of stock, and the stockholders have just cause to complain, and do complain, of the non-ificrease of dividend; for if the company could, as they did, pay a dividend upon the income of 1848, amounting to \$319,000, of four per cent per annum, after paying the regular dividend on the preferred stock, interest on bonds, and it the incident of the preferred stock, interest on bonds, and all other incidental expenses of operating the road, &c., the directors could, and undoubtedly ought, to have increased the coming February dividend—the income for 1852 being \$765,935, against \$319,000 for 1848, showing an increase of \$446,899 over the year 1848, without saying one word of the increase during the years intermediate to that time.

The Board of Directors of the Florence and Keyport Company have just made a report, showing the financial operations up to the 4th of January, 1853, and the condition of the concern on that day. It appears by this report that the property has been surveyed, and laid out by the opening and grading of the principal streets. The main avenue or terminus of the plank road to Florence has been laid with plank, and every necessary arrangement for the sale of lots was completed in November last. Since that time, a period of less than two months, 111 lots have been sold, on the terms specified by the charter, to wit: one share of stock and 100 dollars in cash for each lot. The stock received in payment, 111 shares, has been transferred to the company and cancelled, leaving outstanding at present, 9,889 shares.

actions for the half year, conveys at the same time a full exposition of the working of the company, as provided for by its charter, to wit: to convey the property to purchasers at the rate of one share of stock and \$100 in cash for each lot. The stock received being extinguished, the capital remains unimpaired by the sales of the property, the company always having one lot for each share of stock, while the whole cash receipts are divided semi-annually amongst the stockholders. It was stated on a former occasion that the sale of

lots up to the present period would probably not fall short of 400, realizing a dividend of \$4 per share. This estimate was based upon the expected completion of extensive docks and improvements, now making, on portions of the property already sold, the progress of which has been retarded by an unfavor-able season and the late period of the year. Enough, however, has been done in this short period to render certain what was then only the subject of estimate. The acknowledged utility of the works now nearly completed, and the perfect adaptation of the place as the main thoroughfare to the South, leaves no doubt that the demand for lots for immediate occupancy early in the spring, will very far exceed the most san, guine calculations of the company.

On the first of February, proximo, the middle division of the Cincinnati, Hillsborough, and Parkersburg Railroad will be portioned to contractors, who make the most favorable bids. This division, extending from Hillsborough, Highland county, Ohio, to the coal and iron mines of that State, in Jackson county, is about fifty-six miles in length. The western division of this railway, extending from Cincinnati to Hillsborough, sixty miles east of the former place, has been for some time in operation, and is doing, we are informed, a heavy local business in agricultural products. This line is a portion of the great Baltimore through line to St. Louis, and will, probably, form the shortest railroad route, even to Philadelphia, from both Cincinnati and St. Louis.

There was a meeting of the stockholders of the Manassas Gap Railroad Company, in Alexandria, Va., on the 11th inst. The attendance was large. The principal object of this meeting was the acceptance, on the part of this company, of the additional fifths of State subscription, (\$160,000,) passed a few weeks since by the Legislature of Virginia. The State now holds three-fifths of the stock in the road. The Manassas Gap Railroad is now complete to Markham's station, in all sixty-seven miles from Alexandria.

The following is an abstract of the official report of the banks of the State of Ohio, made up to the first November. There are now sixty-eight banks in the State, viz .: - 1. Five of the original chartered institutions, including the Ohio Life and Insurance and Trust Company. 2. Eleven independent banks, doing business under a former general law, and depositing bonds as collaterals for issues. 3. Forty branches of the State Bank of Ohio, each indepen dent in itself, its capital, loans, profits, &c., bu under the occasional supervision of the Board of Con trol, and each liable to contribute for any failure o one or more of the branches. And 4. Twelve fre banks, established under a recent law of Ohio:-BANKS OF OHIO, NOVEMBER 1852.

CITY TRADE REPORT.

TRUSDAY, Jan. 20—6 P. M.

ASHES.—Some 60 bbls. were procured, at \$5 75 for pearls, and \$4 62\% for pois, per 100 bbs.

BREADSTEPS.—Flour sended upwards. Both consumers and shippers evinced more inclination to operate, and there prevailed a fair speculative demand within our range. The day's business embraced 14,000 bbls.: sour at \$4 51\% a \$4 63\%; superfine No. 2, \$4 83\% a \$5 66\%; or railinary to choice State, \$5 60 a \$6 83\%; mixed to fancy Western, \$5 62\% a \$5 81\%; a common to good Southern, \$7 75 a \$5 87\%; lancy Genesee and Ohio, \$5 81\%; a \$5 63\%; extra Genesee, \$5 63\%; extra Western, \$6 93\%; a \$6 37\%; extra Genesee, \$5 93\%; a \$6 50\%; and fancy Southern, \$6 a \$7. Wheat was in good request, but the high rates asked prevented a large trade. The sales reached 10,000 bushels prime Western white at \$1 30 a \$1 31; and 12,500 do. Inferior Genesee, supposed at \$1 12\%. Rye, barley, and oats, remained as last stated. Corn scemed pretty brisk and firm. The sales comprised 33,000 bushels, at 69c. a 70c. for inferior, and 71c. a 73\%c. for common to prime white and yellow Southern.

COTION.—The sales were 1,600 bales to-day, at full vision.

The sales comprised 35,000 bushels, at tope, a 70c. for inferior, and 71c. a 73½c. for common to prime white and yellow Southern.

Cotton.—The sales were 1,600 bales to-day, at full prices. The ball rells onward.

COTTER.—The inquiry was brisk at full rates. The transactions included 100 bags Para at 11½c., 500 do. Rio, at 9½ a 9½c.; and 100 do. Laguayra, at 9½c. per lb. Freients.—There was a better feeling to-day, with more doing; 3,000 bbls, flour were engaged for Liverpool, at 2s. 9d. Wheat was at 8d. in bulk, to 9d. asked, and 10 tons oil cake were taken, at 35s. To London, 50 tons oil cake were engaged. There was a great demand for freight to Australia. The American ship Bavaria was engaged for Port Philip, at \$3.50 a \$4 per bbl; about 8,000 bbls, were taken at \$4; a foreign vessel was also taken up, at \$3.50; the one noticed yesterday was at the same rates. To California, engagements were making, by clippers somewhat advanced in loading, at 75 a 80c. per foot. A vessel was taken up for Rarbadoes, at 50c. per bbl.

NEW PURIACATIONS.

PEADY THIS DAY—A PERFECT LITERARY GEM—
Graham for February. 112 pages, splendidly illustrated. The February number of Graham's Magazine, containing one hundred and twelve ample pages, filled with the choicest literature of the day, and illustrated with surpassing beauty, by Devereaux and other accomplished artists.

The publisher is gratified to be able to announce that the great increase of subscribers for 1853, enables him to promise a large addition of attractive features for future numbers. John Sartain, Esq., the accomplished mezzotint engraver, and former editor of Sartain's Magazine, has been added to our corps of artists, and we have the promise of some plates, of rare elegance and freshness, from his burin.

In the engagement of Mr. Sartain, we show our friends the evidence of a determination to make Graham the leading illustrated monthly of the Union, despite of all doubts of the unbelieving.

We shall improve the Magazine still more in the literary department as success affords us means, and by all honest efforts strive to keep the position we have so long held among publishers of American monthly periodicals, in spite of the competition from any quarter, fair or unfair.
